About Ortho Clinical Diagnostics

Ortho Clinical Diagnostics (Ortho) is committed to improving and saving lives with diagnostics. For more than 75 years Ortho has transformed in vitro diagnostics and it’s made us a trusted partner of hospitals, hospital networks, blood banks and labs around the world. From our earliest work in blood typing to the latest developments in laboratory systems, we’ve pioneered life-impacting advances that have helped medical professionals diagnose conditions early and make better-informed treatment decisions.

With as much as 70 percent of health care decisions influenced by diagnostic test results, diagnostics play a major role in health care and patient outcomes.1,2 Diagnostics underlie the entire patient care process – from diagnosing diseases to guiding therapy and treatment decisions.

Ortho has an established track record for providing high-quality products and services to the global clinical laboratory and immunohematology communities:

**Clinical Laboratories**
Testing platforms and clinical assay tests to monitor disease progression across multiple disease categories including infectious diseases, cardiology and endocrinology.

**Immunohematology**
Commonly referred to as blood banking, the area of laboratory medicine that ensures appropriate and compatible components for blood transfusions.

**Worldwide Locations**
Headquartered in Raritan, NJ, Ortho Clinical Diagnostics serves customers in more than 120 countries. The Company has approximately 4,300 employees worldwide.
